

Attention Enterprise Income Verification (EIV) System Users for Multifamily Housing Programs

EIV System Update!

The Department has identified problems associated with the electronic submission of Coordinator Access Authorization Form (CAAF) and User Access Authorization Form (UAAF) requests for EIV access. In addition, benefit and wage-related information, including Social Security (SS), Supplemental Security Income (SSI), wage, unemployment compensation, and new hires (W-4) information is currently unavailable in EIV for tenants **not receiving** Section 8, Rental Assistance Payments (RAP), or Rent Supplement at Section 236 and 221(d)(3) BMIR properties. All of these problems should be corrected by **September 22, 2008**. For detailed information on the problems and interim solutions, please see the **EIV System Update for Multifamily Housing Program Users** web page at: <http://www.hud.gov/offices/hsg/mfh/rhiip/eiv/sysupdates.cfm>

Thank you for your patience and for your interest in HUD's EIV system.
